2012 Life Safety and Health Care Facility Codes

Door Inspections and Other Critical Inspection, Testing and Maintenance

June 12, 2017

1:00 pm - 2:30 pm EST

2012 Life Safety and Health Care Facility Codes

Door Inspections and Other Critical Inspection, Testing and Maintenance

Date & Location:

June 12, 2017

1:00 pm - 2:30 pm EST

Survey enforcement of the 2012 Life Safety Code & Health Care Facilities Code began November 1. Facilities are being given a year to come into compliance with several critical inspections, testing and maintenance items which are coming due by July 5, 2017 such as door inspections, non-hospital grade receptacles and sprinkler heads.

The inspection of fire and smoke doors is a new requirement for nursing facilities to inspect according to the 2012 Life Safety Code. The criteria specify that the door inspections must be "performed by individuals with knowledge and understanding of the operational components of the type of door being subjected to testing." This webinar will review the door inspection qualified training to assist providers in ensuring they meet the requirements; assist in developing the documentation to provide to inspectors; and will provide a sample inspection form. This session will also review the inspection of electrical receptacles and sprinkler heads as well as critical documentation necessary to maintain compliance.

Speakers:

Kenneth M. Daily, President, Elder Care Systems Group, Dayton, Ohio, Over his 25 plus year career, Kenn has wide-ranging experiences in advancing long-term health care. Kenn has a strong reputation for designing integrated and customized solutions for clients to achieve organizational quality and compliance. Kenn is a member of the Ohio Health Care Association (OHCA) Board of Directors and Chair of OHCA's Life Safety Code/Disaster Management Committee. He also serves on the American Health Care Association's Life Safety Committee and the National Fire Protection Association's Health Care Section where he also serves on its Executive Committee. Kenn is a recognized author and recently completed editing the NFPA's 2000-2012 Life Safety Code Guidance as well as authoring Life Safety Code Essentials for Skilled Nursing Facilities' ECSG, 2012.

Continuing Education Credits:

Each program is approved for one (1.0) hour of credit for CEALs, nursing home administrators and nurses. Individual attendance will be monitored throughout the call. Only those attending the entire call will be awarded continuing education credit. All participants regardless of need for CEUs, will receive a certificate of attendance. This course is considered a self-study course by Ohio BELTSS. Administrators are reminded that BELTSS limits teleconference (home/self-study) credits to a total of ten (10.0) per renewal period.

How it will work:

One week prior to the webinar, you will receive an email with the toll-free number and access code for your contact person at the facility to enter the webinar, as well as any handout materials and continuing education request forms. The number and access code are only valid for one connection (*phone line & computer*) per each registered organization. Any additional connections will be billed the webinar registration fee.

How much does it cost?

Facilities will pay one low fee for an unlimited number of participants. However, the number and access code is valid only for one phone line/computer at the location registered with the Association. Any additional telephone #'s/computers calling in will be billed for the registration fee.

Have a conflict the day or time of the call or just want other shifts to be able to hear the program? This program is being recorded and a cd-rom along with the handouts is available for purchase. CEUs are not available for listening to the CD.

It is imperative that an email address is provided as this is where call in code and handout materials will be sent.
